

The KIDSONCLIMATE project

young people have their say!

We invite you to **participate** in a European **study** conducted by CReSPo (UCLouvain).
The goal? To understand how what you learn about **climate change** influences your
view of the world and **democracy**.

Why participate ?

- **Become an expert:** Your voice is often underrepresented in the social sciences. Here, your opinion matters.
- **A fun exchange:** This is not an exam. It is a 40-minute discussion (in person or via video) based on images and games.
- **No pressure:** There are no right or wrong answers.
- To **thank you** for your time, you will receive a voucher/gift certificate after the interview.

Your guarantees :

- **Complete anonymity:** Nothing in the results will identify you.
- **Freedom:** You can stop at any time, even after the interview, without having to justify yourself.
- **No video recording:** only an audio recording of the interviews is made, stored securely for the duration of the project (2 years), then permanently deleted.

**Find out more about the
project here!**

Participation Form & Consent

Participant (student) consent form

I declare that I have understood the above information and agree to participate in the interview. I understand that I may withdraw at any time.

First and last name	
Date
